

Rotary Locks

Southco Electronic Rotary Lock - R4-EM-9D3-15A0

Components

Rotary locks can be digitized with the Teleporte keyless technology by connecting the Southco's R4-EM-9D3-15A0 with the X-Series lock controller.

Wiring

The X-Series controller can be secured to the inside of the enclosure by using two 3/16" screws. Refer to the installation manual (M-AX5-N-007-EN.pdf) for more details, or email us at support@sera4.com

Information about the installation of the Southco's R4-EM-9D3-15A0 rotary lock can be downloaded [here](#).
