

## FEATURE SHEET

The AP3 Armored Padlock from Sera4™ is a keyless padlock designed to be used in harsh outdoor environments, including winter. Snow and ice present a specific challenge for all padlocks. The AP3 Weather Guard keeps snow and ice off the padlock, specifically designed for AP3, to ensure the best possible performance in winter conditions.

## Features

- Tough ripstop nylon construction
- Waterproof and UV Resistant
- Velcro strap keeps everything in place
- Inner tether strap attaches to AP3
- Drawstring and top flap keep snow and ice away from the lock
- Fits AP3 with any shackle option
- Easy to open wearing gloves
- Grey color does not attract attention

For advice specific to using an AP3 Padlock in winter climates, read our **AP3 in Winter** cheat sheet and whitepaper. Available to everyone at

For information on the Sera4 AP3 Armored Padlock, visit [www.sera4.com](http://www.sera4.com)

**Left:** Inner tether keeps the Weather Guard attached to the padlock when open. Easy installation.

**Center:** A locked padlock on a fence. Works well with all common hasp types.

**Right:** Tested in Canadian winters. Proven to reduce the problems of iced shackles and frozen mechanics.

Orderable Part Number	AP3-WG
Made and Designed in	Canada, for Canadian winters
Ordering Advice	Order 1 per AP3 padlock used outdoors in climates that freeze
